

Mystery Wheat Expected To Create A Sensation In Western Canada

Edmonton.—Hermann Trelle, world champion wheat and oat grower, is paying the way for a new triumph that will likely cause a stir in grain growing belts of Canada and the United States.

This is a new variety of wheat which can be sown later and ripens 15 days earlier than present varieties and which is expected to cause a revolution in wheat growing in Western Canada.

When members of Hon. Dr. King's party visited Mr. Trelle's farm at Wembley during their recent tour of the North country, they found that successful experiments are being conducted with this "mystery" wheat. It has been supplied from the Dominion Experimental Farm at Ottawa and gives indication of creating a sensation in Western Canada. The samples were examined by members of the party and all were obviously impressed with the results of the initial tests.

This year Mr. Trelle is enlarging his holdings and has 150 acres as compared with 160 acres last year. He plans on continuing his experimental work on a large scale, according to members of the party.

Noted Explorer Is Slain

Reported That Members Of German Expedition To Interior Of China Are Massacred

New York.—The New York World says Dr. Wilhelm Filchner, former staff officer of the Imperial German Army and noted explorer, and all of the members of an expedition he was leading, have been reported massacred by natives of the western part of Szechuan province, China.

The World's wireless station picked up a German trans-oceanic wireless press message to the effect that a British resident of Sikkin in the northern part of India, just south of Tibet, had reported that Filchner and his party had been killed.

ANTI-SMUGGLING PLANS DISCUSSED AT WASHINGTON

Washington.—The Royal Canadian Customs Commission left for home after holding four formal meetings and several informal meetings with state, customs, coastguard and prohibition authorities here. It was permitted to look into the workings of the United States anti-smuggling machinery. It investigated the efficacy of the United States customs system in general and three or four branches of the system in particular. It received some suggestions from the United States authorities for improvement of conditions along the border. The commission will take all these things into consideration while it is preparing its reports to the Canadian Government after the close of the Ottawa sittings.

The commission while in Washington confined itself strictly to inquiry into procedure in the United States and any negotiations for a change in existing agreements between Canada and the United States will be instituted later on by the governments themselves.

Little information has been given out as to what actually happened at the conference here, but in unofficial talks with newspapermen, United States officials have let it be known that they are working towards tightening up of the 1921 anti-smuggling treaty between Canada and the United States. Assistant Secretary of the Treasury, Seymour Lowman, in charge of customs and coastguard patrols, announced that the border patrols would be increased from 200 to 400 men in the Buffalo-Lake Huron district, and prophesied that the United States would greatly increase the number of its coastguard vessels on the Great Lakes if the smuggling of liquor by this route continues.

It is known that United States would like Canada to establish her own coastguard agents in this country. The commission no doubt has been told that this would make it easier to prevent smuggling both ways and that regular certificates would go far toward minimizing fraudulent invoicing and double invoicing, which methods are now being used to cheat the Canadian Government of revenue.

—W. N. C. 1297

Popularity Of Lindbergh

Seven Million Dollars Involved In Business Offers Since He Made Famous Flight

New York.—Charles A. Lindbergh can have \$1,000,000 by going through a real marriage ceremony in front of a movie camera and \$5,000,000 more by accepting the business offers tendered him since he made his non-stop trans-Atlantic flight, says Commander Fitzhugh Green, the lone eagle's chief secretary, in a popular science monthly.

Commander Green, who has completed a check up on mail and other communications to Lindbergh, says that among the 2,500,000 letters and 100,000 telegrams and cables received, were at least three proposals that the young flier join in an attempt to reach the moon by rocket shot from the earth. Lindbergh also received thousands of proposals of marriage. The aviator's mail included also 14,000 packages.

Lindbergh's poems, sent in his mail, numbered 5,000 and upwards of \$10,000 was received in return postage. More than 500 "close relatives" asked him to "do something for them." More letters came from women than from men and letters from girls outnumbered those from boys four to one.

Col. Lindbergh answered many of the letters in longhand, but thousands found their way to the waste basket.

New Doukhobor Leader

Son Of Former Leader Leaving Russia For Canada

Yorkton.—Peter Verigin, new leader of the Doukhobors, second son of the former leader of the Doukhobors, in Canada, leaves Moscow September 2, for this country, according to word received by a prominent member of the Doukhobor colony near Yorkton. He will sail from Southampton on the Berengaria for New York September 10. Permission for Mr. Verigin to leave Russia was extremely difficult to secure from the Soviet Government. Negotiations to this end have been under way ever since the death of his father in a railway accident two years ago, and many obstacles had to be overcome. Mr. Verigin will be accompanied by Paul Ivanovich Dirukoff as traveling companion.

Makes Altitude Record

French Aviator Attains Height Never Before Reached By Man

Paris.—Aviators intent on breaking the world's altitude record must climb higher than 42,651 feet in consequence of the feat of Jean Calzizo who topped his own record by almost 1,700 feet. Calzizo's former altitude record was 12,412 metres and the new mark is 13,900 metres.

"Never again," I don't want to fall off the earth," exclaimed the diminutive Frenchman when informed that he had attained a height never before reached by a human being.

Will Solve Jap Food Problem

Tokyo.—Synthetic sake, a substitute for rice which its inventor declares will solve the food problem in Japan, has been perfected, according to Dr. Teizo Takahashi of the Tokyo Imperial university. According to Dr. Takahashi, the new food will be manufactured through a series of 25 chemical compounds. It will be exceedingly economical when the process of manufacture is more nearly perfected, he says.

Sugar Industry For B.C.

New Westminster, B.C.—Arrangements for the establishment of a beet sugar industry in the Fraser Valley by an English company, capitalized at \$2,000,000, have been completed, according to word received by the New Westminster Board of Trade. The company will acquire a large area in the Fraser Valley worked by English and Scotch labor. The plant, it is believed, will be located in New Westminster.

Would Control Flights

Washington.—Rigid control of all future trans-oceanic air flights will be insisted upon by the National Aeronautic Association which announced that while it disclaimed any desire to discourage "individual initiative in the quest for new records" it would demand fitness of flying equipment and competence of personnel as indispensable conditions to sanctioning such flights.

ATTEMPT TO CIRCLE THE GLOBE

Here are the latest armen to fly across the Atlantic, William Brock, (left) and Edward F. Schlee. In their Sikson-Detroiter plane, similar to craft in the Windsor-to-Windsor and London-to-London dashes, they recently flew across the Atlantic from Newfoundland to England in an attempt to circle the globe in 15 days.

GOOD CROP NOW BEING GARNERED IN PRAIRIE WEST

Ottawa.—Canada is in a fair way to garner another good crop, says a review issued by the Department of Agriculture based on reports submitted by the superintendents of the Dominion Experimental Farms. The survey includes wheat, coarse grains, potatoes, hay and forage, apples, tobacco, sugar beet, and turnips and covers all the provinces.

The wheat producing provinces of Western Canada are referred to separately in the review. In Alberta it is stated very heavy yields are indicated in all parts of the province. No frost or rust damage is in evidence. Cutting is well under way in the South and just started in the central part of the province. A bumper crop in the Peace River region is indicated. "In fact," says the report, "the province, as a whole, seems to be ready to harvest a nearly record crop of good quality wheat."

Cutting is general in Southern Saskatchewan, but just beginning in the more northerly parts according to the review. In Saskatchewan some injury has been done by frost and rust but this is not likely to cause any great damage. On the whole, prospects in Saskatchewan are for a very good crop with yields somewhat above the average. With respect to the Manitoba wheat situation the bulletin states that about 40 per cent. of the wheat crop has been cut in the Southern part of the province and promises to be up to average.

In Central Manitoba, the crop is heavy and is being injured to some extent by rust. In the more northerly parts the crop is rather late and may be affected by rust and frost. The wheat crop in Quebec and Eastern Ontario will be about average, it is stated. In Western Ontario it is considerably better than last year.

Huge Sum For Defence

New York.—The seven year vain struggle to save Sacco and Vanzetti from death in the electric chair entailed expenditure totalling more than \$50,000, Alfano Felici, treasurer and founder of the Boston Defence Committee, announced here.

"Fore" Replaces War Whoops

Were the stoic old chiefs of the past to sit up in their graves and watch this young chief driving from the eight tee on the Banff Golf Course, there is no saying whether they would grunt in disgust or with approval. Chief Big Buffalo, who is seen about to drive, thinks they would be envious and would bemoan their fate at having to sleep on while their grandsons sent whistling drives over stretches that once echoed with their war whoops.

Public Opinion Against War

Increased Participation Of The Masses In Peace Movements

Vancouver.—Increased participation of the masses of the people in formulating the attitudes of nations toward each other was given by Sir George Foster, in addressing the Canadian Club here, as one of the forces operating against war. He cited as an example that not long ago war seemed possible between the United States and Mexico, but that immediately the chance of conflict became known people from all parts of the country protested to Washington. He said the history of negotiations before other conflicts showed that decisions were made on the prejudices of a mere handful of people.

"Read the negotiations which occurred before the last war and note the few persons who participated in them," he said.

Sir George spoke on "The New Internationalism." He said the most stupendous accomplishment in all history was the fact that the peoples of 63 nations had formed themselves into an association of nations to devise new methods of carrying on relations.

Report Labor Increase

Data Shows Gain In Prairie Provinces During July

Regina.—The Labor Gazette reports that in the prairie provinces last month the greatest gains in employment were in construction, manufacturing, transportation, service and communications, while logging (in which the movement was seasonal) showed a decline. Data were compiled from 775 employers with an aggregate staff of 118,556 workers, as against 113,998 in their last report. This increase of 4,558 workers exceeded that registered on July 1, 1926, while the level of employment was higher than on the same date in any other year of the record.

No Increase In Immigration

Ottawa.—According to the Department of Immigration, June brought 18,052 newcomers to Canada as compared with 12,191 in June of last year—an increase of 48 per cent. The total for the first quarter of the fiscal year was 77,421 compared with 18,402 for the same quarter of 1926—a gain of 60 per cent. Of the June figures 7,272 were British, 2,612 were from the United States and 8,138 from other countries.

Parties Prepare For Election In Ireland

Voting Will Take Place In Free State September 15

Dublin.—All the political parties of the Free State have been devoting their energies the last few days to preparations for the legislative elections called for September 15, and the campaign has begun in earnest.

William T. Cosgrave, president of the Free State government, and nearly all his ministers, were to start extensive speech making programs throughout the country.

The Fianna Fail, Republican party of Eamon de Valera, has already published the names of 19 candidates. All the Laborites are recontesting their seats and will be reinforced by other candidates. The government has not yet announced its candidates and Capt. William Redmond has given no indication of his plans for the National League Party.

Complain About

History Books

Report Says Text Books Used In Chicago Are Pro-British

Chicago.—Histories used in Chicago public schools were indicated as anti-American, pro-British and "grossly distorted" in an exhaustive report filed with Mayor Thompson.

John J. Gorman, former congressman who was commissioned by the Mayor to investigate the text books, said he found "they omit facts and distort and minimize many of the real characters, events and ideals hitherto held sacred to American history."

The report came fast on the heels of the suspension, under charges of insubordination, of William McAndrew, superintendent of schools, whom Mayor Thompson has assailed as "the stool pigeon of King George" and the instigator of alleged anti-American teaching in the schools.

Crop Pest Control

Meeting Held At Saskatoon To Discuss Problem

Saskatoon.—Entomologists representing the prairie provinces, Ontario, Minnesota, Montana, and North Dakota, met at Saskatoon in annual conference of the Great Plains Crop Pest committee at the University of Saskatchewan. They were in session here for two days, during which time they discussed problems of control and eradication of farm crop pests.

There have been no very serious outbreaks of pests during the present season, delegates stated at the opening session.

Ship Cream To England

Quebec.—The Provincial Department of Agriculture announces that its experiments, conducted in co-operation with the Development Branch, Canadian Pacific Railway, in the shipping of sweet cream to England, comprising four separate consignments, have been entirely successful. The cream arriving in uniformly good condition. Now that the possibility of this new development has been demonstrated it is expected that commercial interests will enter the field.

GERMAN ENTRANT IS WINNER OF THE MARATHON SWIM

Lake Shore, Toronto.—Four miles and four and a half hours ahead of his nearest rival, Ernst Vierkoetter of Germany crawled across the finish line to victory and a cash prize of \$20,000 at the William Wrigley twenty-one mile marathon swim through icy cold Lake Ontario waters. Vierkoetter's time was 11 hours, 13 minutes and 38.25 seconds, a record for the distance.

Georges Michel of France, huge conqueror of the English Channel, finished second to collect \$7,500. Both men finished strongly, not showing any visible sign of great fatigue as a result of the long and terrible grind from morning until night, after ploughing their way to the close from 200 starters in one of the greatest sporting events ever staged on the North American continent. Michel's time was 16 hours and 12 minutes, using an easy trudgeon stroke.

Nearly a quarter of a million people welcomed Vierkoetter while several thousand waited the intervening hours to greet the second prize winner with a tremendous ovation.

William Erickson of New York, the "douter," was the last to finish, but owing to withdrawals took third place in the prize list. His time was 18 hours and 59 minutes.

Canadian Air League To Further Interests Of Aviation In Dominion

Uniform Rate Necessary

Present Restrictions Hamper British Immigration Says Dr. Black

Montreal.—"Restrictions which apply to the low passage rate render it difficult, if indeed not impossible, for any considerable number of British people to avail themselves of that rate to come to Canada and settle here on the land," said Dr. W. J. Black, director of colonization of the Canadian National Railways, who has returned from Europe.

Dr. Black suggested that a flat rate should be adopted declaring a uniform rate was necessary and that application of such a rate should be without any complex series of restricting regulations.

"Due to the restriction of entry to the United States," said Dr. Black, "Canada now has an opportunity to secure a considerable proportion of the stream of immigration which heretofore has flowed into the United States and which has greatly helped develop that nation during the past 50 years."

Mounties Return From Far Northern Interior

Opened a New Police Post On Liard Lake

Prince Rupert.—After spending fourteen months in the remote regions of the Northern interior during which time they opened a new post of the Royal Canadian Mounted Police at Lower Liard on Liard Lake, Inspector T. V. Sandys-Wunsch, Sergeant Paton and Constable Cooper have returned to Vancouver. With them was John Too, an Indian, who had gone insane in that wilderness, who will be lodged in Esquimalt.

Inspector Sandys-Wunsch, it will be remembered, figured prominently in the witchcraft murder case which was tried in Prince Rupert two years ago and which resulted in the conviction for manslaughter of Big Alex, who has since been released and returned to the Liard River district.

Saved Millions For Employers

Detroit, Mich.—James Everett Smith, steel expert of the Ford Motor Company, died Monday after a long illness. Smith saved the company \$36,000,000 in four years by use of a new method to harden steel, according to a statement written by Henry Ford in his autobiography.

SUNDAY SCHOOL LESSON

SEPTEMBER 11

SOLOMON DEDICATES THE TEMPLE

Golden Text: "I was glad when they said unto me, let us go unto the house of Jehovah."—Psalm 122:1.

Lesson: 1 Kings 8.

Devotional Reading: Psalm 122.

Explanations and Comments

1. The Great Procession With the Ark and the Tabernacle, verses 1-5.—It was during the Feast of Tabernacles, which began on the fifteenth of the seventh month and lasted seven days (Lev. 23:34), that the elders of Israel and all the heads of the tribes brought up the ark of the covenant out of the city of David, which is Zion. "Both the House of Commons and the House of Lords were present, as we would put it, for the elders were the chosen representatives of the people, and the princes of the fathers' houses" were the hereditary leaders. In addition there was a vast attendance of the rank and file" (R. C. Gilie). Two processions advanced from different directions. One came from Gibion and bore the sacred tabernacle with its goat's hair covering and boards of acacia wood, and all its holy vessels—the brazen altar, the golden candlesticks, the table of shew-bread, and the brazen serpent. On Mount Zion this procession joined the other which bore the ark away from its temporary tent erected for it in Jerusalem by David. As the two processions proceeded to the temple, Solomon and a great congregation with him sacrificed a host of sheep and oxen. "The road was flooded with the streams of blood. The air was darkened and scented with the clouds of incense; the songs and dances were intermittent. Onward the procession moved on the slope of the hill. It covered court after court of the temple. It reached the Holy Place" (Stanley). By this lavish slaughter Solomon was honoring God in the best way known in those days. It was a primitive method of saying that King and people set no limits to the honor they would show Jehovah.

"There is something repulsive to us in this circumstance, but there is a noble side to such garishness of slaughter. Barbaric it was, but devotional also. Before we blame them, we have to be ready to give as freely in our purified, higher way to the service and worship of God."—R. C. Gilie.

Ottawa.—Steps were taken here to form a Canadian Air League similar in scope and function to the Air League of the British Empire formed in Great Britain in 1921. At a luncheon given by Major-General J. H. MacBrien, attended by a number of representative airmen from Montreal, Ottawa and Toronto, it was decided to form the Canadian League and a provincial committee was appointed with Major-General MacBrien as chairman.

Dr. Hadden Guest, former British member of Parliament, was present at the luncheon representing the Air League of the British Empire and especially delegated by the head of the league, Gen. Groves, to offer its cooperation in the formation of a partner league in Canada. Dr. Guest explained the scope and function of the British league and pointed out the need of a representative organization in each country of the Empire to assist in the civil, commercial and military development of aviation.

During a general discussion on the aviation situation in Canada reference was made to a lack of co-operation among the various aeronautical clubs, the need of aerodromes, the mapping of aerial routes, the growing public interest in aviation, and the opportunities for practical work which a national organization would afford.

Gen. MacBrien, in accepting the position as the provisional and organizing chairman, said he would devote his time and energy to the task during the next few months at least and would probably visit all aviation centres in Canada with a view of linking up all present aviation clubs and provide a common medium for all interested in the progress of aviation.

Col. R. H. Mulock, Winnipeg, is Western Canada's representative on the provisional committee.

New Laying Record

Saskatchewan Barred Plymouth Rock Hen Is New Champion

Saskatoon.—A Barred Plymouth Rock hen owned by the University of Saskatchewan has made a new record for egg production.

Completing her pullet year, this new champion has to her credit a total of 329 eggs in 265 days. Not only is this a new record for Barred Plymouth Rocks, but as far as is known it is a new record for all heavy breeds of poultry.

This bird was bred and raised by the poultry department of the University. She is known as H.3403.

Drink More Milk

Minneapolis.—Mrs. Ella Bode, Brooklyn, was re-elected president of the National Women's Christian Temperance Union, in annual convention here. Milk drinking has increased 27 per cent, and ice cream consumption also has gained since prohibition went into effect, said Miss Ella A. Marshall, Chicago, in an address before the convention.

A Miraculous Cure

Quebec.—A miraculous cure was reported from Ste. Anne de Beaupre, Sunday. Balderino Grassie, a Cuban, declared herself cured of tuberculosis from which she had been suffering for several years.

SELECT SITE FOR MOORING MAST NEAR MONTREAL

Ottawa.—Hon. J. L. Ralston, Minister of National Defence, has announced that negotiations for the purchase of a parcel of land near Montreal, containing approximately one square mile for the site of the mooring mast, have been practically completed. The site selected is that recommended by Major G. H. Scott and A. R. Gibbs, officers of the air ministry, who visited Canada in the early summer to assist in the choice of a suitable location.

It lies on the South shore of the St. Lawrence River, some six miles from the centre of the city of Montreal, approximately four miles from the Longueuil Ferry wharf and adjacent to St. Hubert Station on the main line of the C.N.R.

"It is part of an open, level plain, well drained, of good surface and in every way suitable for its purpose," the Minister stated.

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

This little ad. did the trick in less than 24 hours:

WARNING!—If the person who cut and took the 2-inch rope from my horse will return it at once prosecution will be avoided. Geo. Hunter.

Ask George all about it!

MRS. GIBNEY WINS LADIES TENNIS TOURNAMENT

After many interruptions through weather conditions and the holiday season the ladies tennis tournament held at the Gleichen tennis courts has been completed. Mrs. Gibney, wife of Rev. F. M. R. Gibney of St. John's Blackfoot Mission and Old Sun School is the winner of the final game. Much pleasure and interest has been derived from the many games played and it is no small credit to Mrs. Gibney to be the winner among so many participants. The following results may be published:

Mrs. Luman won from Miss Walker; Mrs. Baker from Mrs. Galt; Mrs. R. Lewis from Mrs. Galt; Mrs. Melvin from Miss Lila Jones, Mrs. Bates; Mrs. Gibney from Mrs. Sather; Miss B. Crawford from Miss Innes; Miss M. Crawford from Mrs. Schmidt; Miss V. Rasmberg from Miss Milligan; Miss K. Thompson from Miss O. Pobst; Miss Evelyn Wood from Miss Jones (Standard).

In the second series the following were the winners: Mrs. Baker from Mrs. Luman; Miss Lewis from Mrs. Melvin; Mrs. Gibney from Miss B. Crawford; Miss V. Rasmberg from Miss Crawford.

The final game of the tournament was certainly one between two close contestants. All of the games were long games and came to close and again. First of all Miss Lewis won a set from Mrs. Gibney with a score of 7-5 in her favor; then Mrs. Gibney won the two following sets which, however, were hotly contested and the score being 6-3 and 7-5. Many spectators were present and the players were almost exhausted when the final ball was hit.

The men's tournament has not been quite completed. The results will be published as soon as available.

Mrs. Burkholder returned last week to her home at Wetaskiwin after visiting her brother Mr. C. W. Harrison.

You can read all the very latest about the new Ford car in MacCallum & Smith's ad in this issue.

H. E. James is happy over the arrival of a fine boy at his home at Gleichen on Thursday last Sept. 8th.

A big crowd is sure to attend the unveiling of the cairn on the Blackfoot Reserve one week from tomorrow—Thursday.

Tourists are complaining of the condition some auto camps are kept in Alberta. Yes, and some towns are complaining of the condition of tourists leave auto camps in. Each might help the other.
